Patent No. 6541248
GENERAL INFORMATION:
APPLICANT: Oxford Biomedica (UK) Limited
TITLE OF INVENTION: Anti-Viral Vectors
FILE REFERENCE: 674524_2004
CURRENT APPLICATION NUMBER: US/09/552,950
CURRENT FILING DAIE: 2000-04-20
NUMBER OF SEQ ID NOS: 22
SOFTWARE: PatentIN Ver. 2.1
SEQ ID NO 5;
                                                                                                                                                                                                                                                             TYPE: DNA
ORGANISM: Artificial Sequence
                                                                                                                                                                                                                                                                                                                                  Query Match

ORGANISM: Artificial Sequence
PRATURE:
OTHER INFORMATION: Description of Artificial Sequence: DNA sequence
OTHER INFORMATION: of the construct pCMVGagpolBNKan containing a CMV
OTHER INFORMATION: promoter, a HIV gag/pol gene and a kanamycin
OTHER INFORMATION: resistance gene
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     Sequence 6, Application US/09872733A

Sequence 6, Application US/09872733A

Patent NO. 6656706

GENERAL INFORMATION:
APPLICANT The Government of the United States of America, as
TITLE OF INVENTION: MOLECULAR CLOMES WITH MUTATED HIV GAG/POL, SIV
TITLE OP INVENTION: SIV ENV GENES
TITLE COP INVENTION: SIV ENV GENES
FILE REPERENCE: 2006-4287021 HIV GAG/POL, SIV GAG & ENV
CURRENT APPLICATION NUMBER: US/09/872,733A

CURRENT FILING DATE: 2001-06-01
PRIOR FILING DATE: 2001-02
PRIOR PILING DATE: 1999-12-22
PRIOR PILING DATE: 1999-12-23

NUMBER OF SEQ ID NOS: 19
SOPTWARE: PatentIn Ver: 2.1
SEQ ID NO 600

Sequence 1, Application US/09872733A

Patent No. 6656706

GENERAL INFORMATION:
TITLE OF INVENTION: MOLECULAR CLONES WITH MUTATED HIV GAG/POL, SIV GAG

TITLE OF INVENTION: SIV ENV GENES WITH MUTATED HIV GAG/POL, SIV GAG

TITLE OF INVENTION: 120 EV ENV GENES WITH MUTATED HIV GAG/POL, SIV GAG

CURRENT APPLICATION NUMBER: US/09/872,733A

CURRENT APPLICATION NUMBER: US/09/872,733A

PRIOR APPLICATION NUMBER: 60/103,036

PRIOR FILING DATE: 1999-12-23

NUMBER OF SEQ ID NOS: 19
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              Mutated Human

GENERAL INFORMATION:

APPLICANT: BARNETT, Susan

APPLICANT: BARNETT, Susan

APPLICANT: HARTOG, Karin

APPLICANT: WING

TITLE OF INVENTION: IMPROVED EXPRESSION OF HIV POLYPEPTIDES AND PRODUCTION

TITLE OF INVENTION: OF VINUE-LIKE PARTICLES

TITLE OF INVENTION: OF VINUE-LIKEN

TITLE OF VINUE-LIKEN

TITLE OF INVENTION: OF VINUE-LIKEN

TITLE OF VINUE-LIKEN

Sequence 2, Application US/09552950

Patent No. 6541248

GENERAL INFORMATION:

APPLICANT: Oxford Blomedica (UK) Limited

TITLE OF INVENTION: Anti-Viral Vectors

FILE REFERENCE: 674524-2004-20

CURRENT APPLICATION NUMBER: US/09/552,950

CURRENT FILING DATE: 2000-04-20

NUMBER OF SEQ ID NOS: 22

SEQ ID NO 2

LENGTH: 4307
TYPE: DNA
ORGANISM: Artificial Sequence
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 1409

Sequence 1, Application US/09872733A

Patent No. 6656706

GENERAL INFORMATION:

APPLICANT The Government of the United States of America, as

TITLE OF INVENTION: MOLECULAR CLONES WITH MUTATED HIV GAG/POL, SIV

TITLE OF INVENTION: BIV ENV GENES

FILE REFERENCE: 2026-4287US1 HIV GAG/POL, SIV GAG & ENV

CURRENT APPLICATION NUMBER: US/09/872,733A

CURRENT FILING DATE: 2001-06-01

FRIOR APPLICATION NUMBER: 60/173,036

PRIOR FILING DATE: 1999-12-23

NUMBER OF SEQ ID NOS: 19

NUMBER OF SEQ ID NOS: 19
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               Length 4338;

Patent No. 6541248
GENERAL INFORMATION:
APPLICANT: Oxford Biomedica (UK) Limited
TITLE OF INVENTION: Anti-Viral Vectors
FILE REFERENCE: 674524-2004
CURRENT APPLICATION NUMBER: US/09/552,950
CURRENT FILING DATE: 2000-04-20
NUMBER OF SEQ ID NOS: 22
SOFTWARE: PatentIN Ver. 2.1
SSEQ ID NO 2
LENGTH: 4307
2457
